

Graduation Requirements

CMA School of Arts and Sciences is an accredited registered private school in the state of Oregon. All graduates are required to meet the graduation requirements and standards set forth by our accreditation through AdvancEd and NWAC. All students must be full-time at time of graduation and have completed a minimum of 3.0 credits with CMASAS in their final year leading up to graduation.

AdvancED Policies and Procedures outline certain requirements that all institutions must meet in order to be in compliance and maintain accreditation. One of these assurances requires that all students graduating from member schools complete at least 25% of the courses required for graduation at the institution. Thus students are required to complete a minimum of 5 credits through CMASAS in order to be eligible for a high school diploma through CMASAS.

We recognize that while many will pursue a college education, others may forego the college experience to pursue and fulfill their life's dream - whether that be theater, pro sports, musical performance or other ambitions. CMASAS provides multiple paths for individual goals!

Our **Graduation Requirements** have been designed to meet and exceed Oregon State Department of Education requirements so that students receive a rigorous college-prep, yet balanced education while maintaining the flexibility to meet individual student goals for life after graduation.

- **Standard:** a student meeting CMA School of Arts and Sciences's graduation requirements will earn a high school diploma. This option may not meet the minimum college entrance requirements, but fulfills the minimum credit and course requirement from CMASAS.
- **College Prep:** students planning on attending university need to review each potential university's entrance requirements and to carefully select a course of study to meet those requirements.
- **Career Prep:** careful course selection, both options for core requirements as well as electives, can allow a student to gain career-specific skills while earning a high school diploma.
- **Honors/AP:** CMA School of Arts and Sciences is proud of its "honorable honors program" that incorporates personal development and community service while guiding students towards higher-level learning within areas of interest.
- **Adult High School Diploma Completion:** adult students have other life responsibilities, making the flexibility provided through a personalized program such as CMASAS fit into their busy schedule.
