

IS A PRIVATE ONLINE K-12 SCHOOL RIGHT FOR YOU?

Discover the Power of Personalication®

At Christa McAuliffe Academy School of Arts and Sciences (**CMASAS**), we believe education should be tailored to each student's needs - from course design to student interactions with Personalized Education Coaches (**PECs**) and Course Instructors (**CIs**). We invite you to explore how our Personalication® (**Personalized Education**) model can transform learning into an engaging and fulfilling experience.

Personalized Education Plans (PEP)

Course Selection and Planning

Choosing courses that align with students' interests, strengths, and future goals.

Organizational Skills Development

Teaching students how to manage their workload efficiently.

Graduation Planning

Ensuring students meet all requirements while personalizing their academic path.

Ongoing Mentorship

Providing one-on-one guidance to keep students on track and motivated.

At CMASAS, every student has a Personalized Education Plan (PEP), a roadmap to their academic success. The PEP is carefully created with the help of the student's PEC, Course Instructors and parents.

At CMASAS, students don't navigate their education alone. They have a team of dedicated mentors supporting them every step of the way.

Personalized Attention

At the heart of our program is the deep, meaningful connection between students and educators. We nurture the whole student, not just their academics.

Dedicated Personalized Coaching

Depending on tuition level, students receive consistent support to stay on track.

Advocacy and Accountability

PECs build trusting relationships, helping students set and achieve their goals.

Guidance Beyond the Classroom

CIs offer guidance and valuable feedback, ensuring students receive an enriched learning experience.

Students at CMASAS thrive because they feel seen, heard, and supported.
We Care!

LEARNING HOW TO LEARN

Mastery and Project-Based Learning

Small Course Load

Students focus on just 1-3 courses at a time, reducing overwhelm.

Mastery Requirement

Students must achieve 80% or higher to demonstrate true understanding.

Project-Based Learning

Coursework isn't just memorization—it's designed to be applied to real-world interests and passions.

WITH MASTERY LEARNING, STUDENTS BUILD CONFIDENCE AND RETAIN KNOWLEDGE MORE EFFECTIVELY.

Self-awareness

Understanding when, where, and how they learn best.

Self-monitoring

Assessing their own progress and making adjustments.

Organization and Planning

Setting goals, structuring their workload, and prioritizing tasks.

Skill Transferability

Applying knowledge from one subject to another with confidence.

With these skills, CMASAS students don't just succeed in school—they build habits that serve them for life and help them more easily with transitions to college.

Education should inspire students to become changemakers in their communities.

At CMASAS, personal development is embedded into the curriculum.

Personal Development & Growth

Critical Thinking & Problem Solving

Encouraging students to make meaningful connections.

Community Involvement

Many students engage in service projects, philanthropy, and leadership initiatives.

Tech and Communication Skills

Graduates leave with advanced technology proficiency and strong communication abilities.

Digital Citizenship

Students develop the skills necessary to responsibly navigate online and consider the ethical use of technology.

Beyond academics, we cultivate well-rounded individuals ready to make a difference in the world.

Flexibility and Freedom with Asynchronous Learning

Life doesn't fit into a one-size-fits-all schedule, and neither should education. Our asynchronous learning model ensures that students learn at their own pace, from anywhere, anytime.

No rigid deadlines

Students set their own schedules

Accelerate or slow down as needed

No pressure to match a classroom's pace

Dynamic, engaging lessons

Interactive content that adapts to various learning styles

This model empowers students to take ownership of their education, leading to higher engagement and deeper learning

CRITICAL THINKING AND PROBLEM SOLVING

Self-Pacing and Student-Led Learning

More time when needed

Struggle with a concept?
Take the time you need to
truly understand it.

Move ahead when ready

Master material faster?
Advance without waiting
for a class to catch up.

Personalized Assignments

Choose how to present
projects in a way that aligns
with learning style and
personal interests.

**EVERY STUDENT LEARNS DIFFERENTLY. THAT'S WHY
CMASAS OFFERS A FLEXIBLE, STUDENT-LED EXPERIENCE
THAT REMOVES ARBITRARY LIMITATIONS ON PROGRESS.**

Creativity and Innovation

Encouraging students to think
outside the box.

Independent Learning

Promoting self-driven
exploration and curiosity.

Analytical Thinking

Developing the ability to assess
information critically.

Confidence-Building

Encouraging critical thinking
builds confidence for future goals.

Passion for Learning: The Heart of Our Model

**Education should ignite
curiosity, not extinguish it.**

Ignite Excitement for Learning

Coursework is tailored to interests, learning preferences, and future aspirations.

Build Engagement

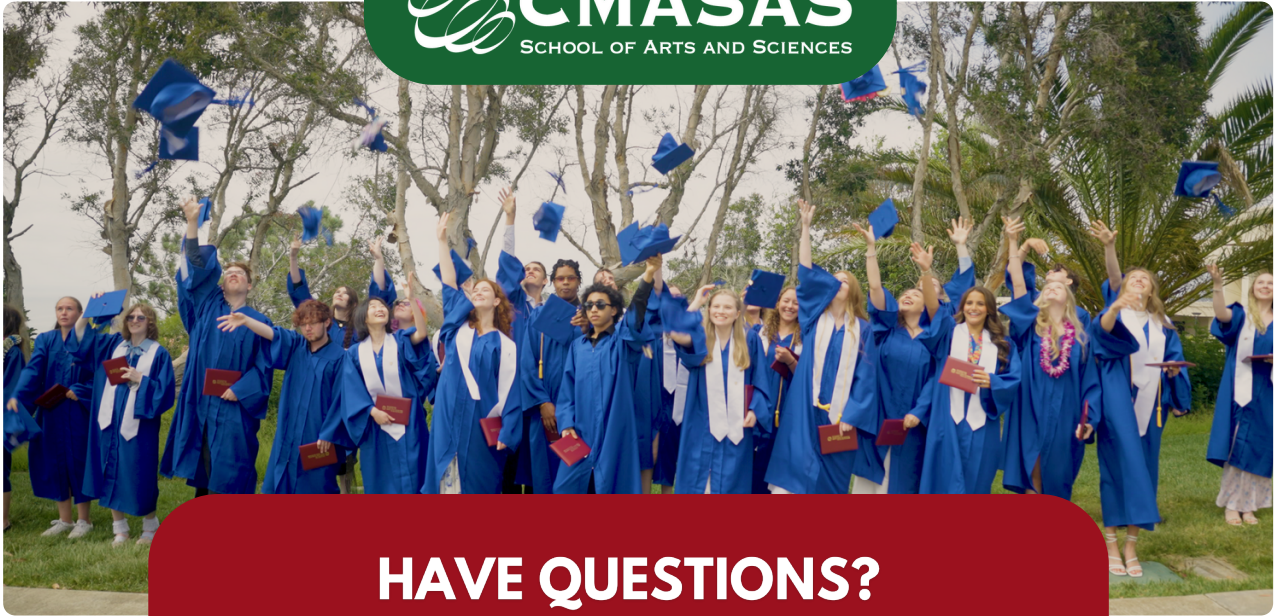

When students see personal relevance in their education, motivation soars.

Creating Lifelong Learners

A personalized approach fosters a passion for learning that lasts far beyond school.

**By nurturing a love for learning,
we empower students to
become lifelong learners
and critical thinkers.**
