

ALUMNI PROFILE

India Macaire CMASAS Class of 2023

India is a dedicated and passionate young woman currently pursuing her studies in biology at the prestigious University of Oxford. Her academic journey has been marked by a unique blend of independence and self-motivation, traits that have not only propelled her to academic success but have also allowed her to cultivate a fulfilling lifestyle beyond her education.

One of the key aspects that sets her educational experience apart is the freedom she enjoys to engage in various sports and extracurricular activities at her own pace. This flexibility extends beyond the playing field as she takes charge of designing her own classes. This personalized approach to education has proven invaluable in shaping India's academic pursuits to align with her interests and goals.

Her earlier years were spent at CMASAS, an school that played a pivotal role in fostering her self-study skills and honing her time management abilities. These skills became particularly instrumental in navigating the demanding academic landscape of Oxford.

The flexibility of the courses at CMASAS allowed her to excel academically and manage her time so efficiently that she graduated from high school a year ahead of schedule. This achievement is a testament to her determination and the adaptability of the educational programs she embraced.

CMASAS wasn't just a school for India; it was a platform recognizing the needs of self-motivated individuals. Ideal for those, like her, seeking excellence beyond textbooks. The emphasis on self-directed learning contributed to her balancing a rigorous academic curriculum with diverse extracurricular pursuits.

India's educational journey reflects a harmony of academic achievement, personal growth, and commitment to a well-rounded lifestyle. As she excels in biology at Oxford, her story inspires those valuing autonomy, self-motivation, and a holistic approach to education.
